## WRIGHT'S INDIAN VEGETABLE PILLS,

Indian Pargative.

THOUGH many medicines have been before the public a much longer period than Wardatt's Indian Value Franks Pills, yet none stands now in higher repute, or has more capally attained a firm hold upon popular estimation. The thousands that have used them throughout the length the and breadth of the Republicall bear cheerful testimony to their thorough efficacy and mild operation when employed in the most distressing disorders "which flesh is heir client the most distressing disorders "which flesh is heir client flesh in the most distressing disorders "which flesh is heir client flesh in the world. THEMEDICINE The theory of disease on which Pright's Indian Peget-able Petts are founded as this, viz: that there is only one primary cause of all the disorates that afflict the human family, and that is corrupt lumors; or, in other words— Impurity of blood. This principle is now so generally ad-THE Great and only remedy for Colds Coughs, Asth. | mitted, that it may in fact be said to be sustained by an universality of opinion, the lew dissenters constituting but a very techle minority. It is uscless, therefore to discuss the soundness of this theory in this place and

The one disease principle being admitted, the mode of attack professed by all practitioners becomes the same—
namely, purgation. But many of the so called specifies namely, purgation. But many of the so called specifies now before the public produce only one form of purgation, they are either Sudorife. Catnartic, Diarretic or Expectoriant. Wright's Indian Vegetable Pills combine all these properties, and are calculated to fittack the elements of discusse at all points, and by a harmonious and combined operation to expel it radically from the system. Their effect is almost magical, and is no less astonishing for its millines than its efficacy. Both sexes and all ages may employ them, according to the directions, without fear, for while they are certain to cure all diseases that are remediable, they never unflet any injury upon the system. These Pills as we before remarked, operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid in the homely but examples. mpurifies, and making the invalid in the homely but ex- altering the secretions of the liver, and other giands, a impurities, and making the invalid in the homers but expressive phrase, "a new many," whether the disease is inciplent consumption, which insidiously attacks the lungs, producing that dry lucking cough so pundit to the friendly earnor entancous, showing itself upon the skin in cripious or blotches, whether the Kidness or the howels be the affection, "Wrights Indian Vegetalite Pills are equally effication, which is the producing that dry lucking the province of the more of the more of the production of the province of the more of the production of the province of the more of the province of the name of the name of the province of the name of the name of the province of the name of t
